To Whom it May Concern,

It is a pleasure and honor to recommend Kia Portafekas, whom I have know for over two decades.

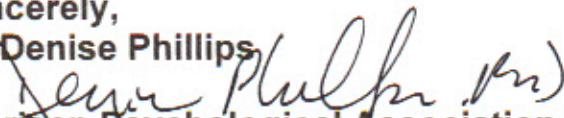

I am a clinical psychologist in private practice and have worked professionally with Kia and witnessed her amazing healing abilities with psychotherapy patients.

She's able to perspicaciously and effectively enter into the deep wounding of a patents' psyche, helping them to dissolve blockages and release and open energy for healing.

Her professional assistance utilizing multiple modalities (intuitive insight, guided imagery, sound) has therapeutically facilitated emotional and neurological healing with my patients .
Simply put, Kia has a gift of restoring emotional balance and finding pathways to healing.
Aside from her keen insights, Kia has a wonderful personality that radiates warmth and emotional bonding.
During consultations she has been intellectually well versed, open and curious to different therapeutic approaches and pathways that seeks to help and restore.

Ms. Portafekas would be a tremendous asset to your organization and has my highest recommendation.

Sincerely,
Dr Denise Phillips
