To Whom it May Concern:

I have known Kia Portafekas for about ten years. She is an extremely positive and upbeat person with a wonderful gift for facilitating groups to be creative and expressive with music. As a guest speaker at the medical school, she has used music and movement to help medical students to open up, connect with themselves and each other.

Kia nurtures the artist within and integrates a sense of authenticity that ultimately awakens one's creative potential. I highly recommend Kia as an inspirational teacher and group facilitator.

Respectfully,

John Dye, ND  
Chair, CME Committee
